## ABOUT US

*Welcome to the world of premium-quality raisins! We offer a diverse range of raisin varieties for customers across global markets”*

Our journey in raisin processing began in 1995. Over the decades, we have consistently evolved our operations and capabilities to meet the changing requirements of our customers. The company was founded by **Mr. Rajendra Badjate**, whose leadership laid the foundation for our growth. Today, the business is professionally managed by **Mr. Samyak Badjate**, who oversees the company's strategic direction, operations, and market development initiatives.

To accelerate our growth and expand beyond domestic markets, we established Badjate Exports as a dedicated international trading and export company. Since inception, we have built a diverse customer base across multiple geographies and remain committed to strengthening our global footprint through reliable supply, consistent quality, and long-term partnerships.

Rooted in India's premier raisin-growing regions of Nashik and Sangli, our vision is to build a multi-origin raisin enterprise by sourcing, processing, and supplying raisins from leading origins worldwide. We are committed to establishing an end-to-end value chain in the global raisin industry.

Today, Badjate Exports is one of India's leading raisin processors and exporters, carrying forward a legacy of trust and excellence.

### MISSION & VISION

#### MISSION

To deliver premium-quality raisins worldwide through responsible sourcing & processing, while building long-term partnerships based on trust and value.

#### VISION

To become a globally recognized multi-origin raisin enterprise, connecting producers and customers through quality, reliability, and supply chain excellence.

### Why Us ?

- With decades of experience in raisin industry, we have developed deep product expertise & state-of-art processing facility to meet the international quality standards.
- From sourcing premium raw material to processing and managing complex shipping operations, we are committed to delivering consistent quality and reliable supply.
